ALMA MATER

Alma Mater, Red Hook Central
We are singing now to thee;
May thy fair name dwell forever
In our fondest memory.
And when high school days are over,
And we leave this school so dear,
We will love thee yet,
We'll ne'er forget
The best school far or near.
Hail, Alma Mater,
We cheer with all our might;
We will sing thy praise
Through endless days,
To the Scarlet and the White.

FOREWORD

As we, the Class of 1955, read our yearbook, we will see Herman, our Teddy Bear, depicted throughout. Herman, who was three years old Christmas, was presented to us as an award for the best Christmas Bulletin Board in 1951. Immediately a motion was made and passed adopting Herman as the official mascot of the Class of '55. Although there was some controversy over his name, the class finally reached an agreement and from that day, Herman reigned over all of our class projects.

As you read this yearbook some years from now, we hope you will have the same wonderful memories of Red Hook Central that we will.

DEDICATION

We, the Class of 1955, dedicate to you, Mr. Green, this yearbook in appreciation of the never-failing guidance and assistance you have given us during the past four years. As we go on to different walks of life, your memory will remain with us.

Dear Barbara,

May your future hold much
success and happiness.
Don't be too hard on you
students. Remember, you were
one one.

Sincerely,
Donald G. 94

PRINCIPAL'S MESSAGE

As your high school commencement comes ever closer, you may feel some uncertainties about the future. This is to be expected as you will face a new period of your life when you will have to depend upon your own resources; mother and dad may not be close at hand with friendly advice and financial assistance. However, your training has been sound; and by strict use of your God-given gifts of courage, intelligence, and character you should readily dispel the clouds of doubt and fear.

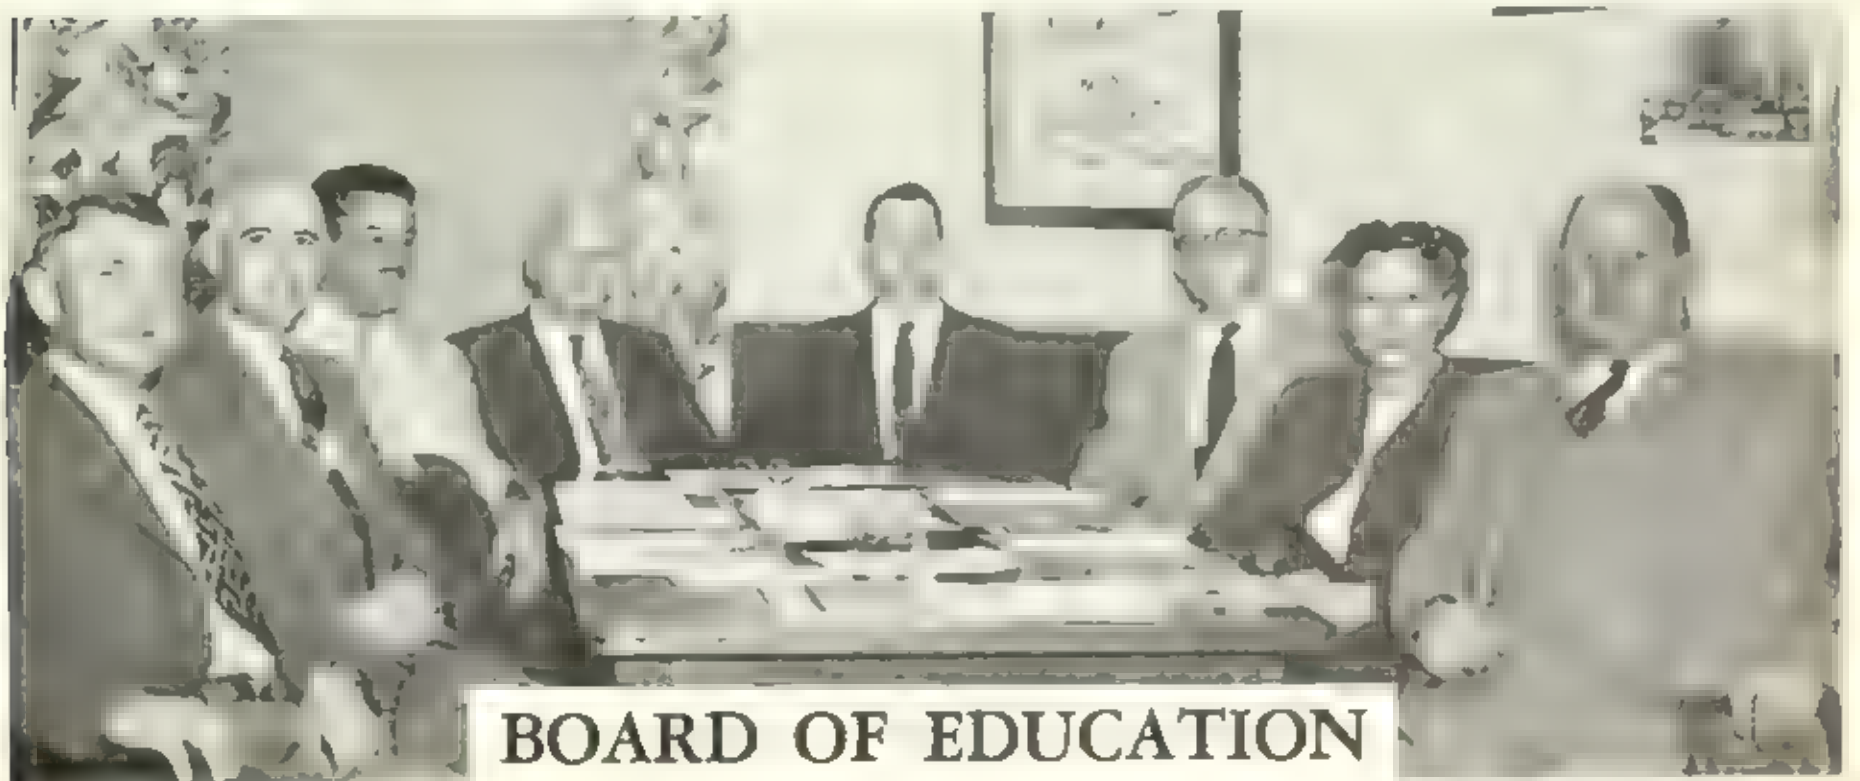

While it is quite true that you face many uncertainties, the opportunities for growth and advancement were never greater than in 1955. It appears probable that great discoveries in the fields of energy, medicine, plastics, and many others, can make your adult lives far different from, and better, than those of your parents. The challenge to you is to make your place in this wonderful new world.

While your future environment will have a changing character, there are certain great basic truths that have not changed for centuries, nor will they ever change. These truths are a part of your religion. If you will be happy, build your success upon a rock of faith. That is the unchangeable in this changing world. Be a religious man or woman.
